

3D Paper Squishy: Hay Bale

DIY Paper Squishy Template · 3D box · to color

print at 100%

— cut - · - · fold  glue tab

1. Cut out and pre-fold all fold lines (dash-dot lines).
2. Cover with wide clear tape, then crease the fold lines again.
3. Glue the gray tab inside the side, tuck in the bottom and secure it with tape.
4. Stuff with cotton, tuck in the lid and tape it shut – your 3D squishy is done.
