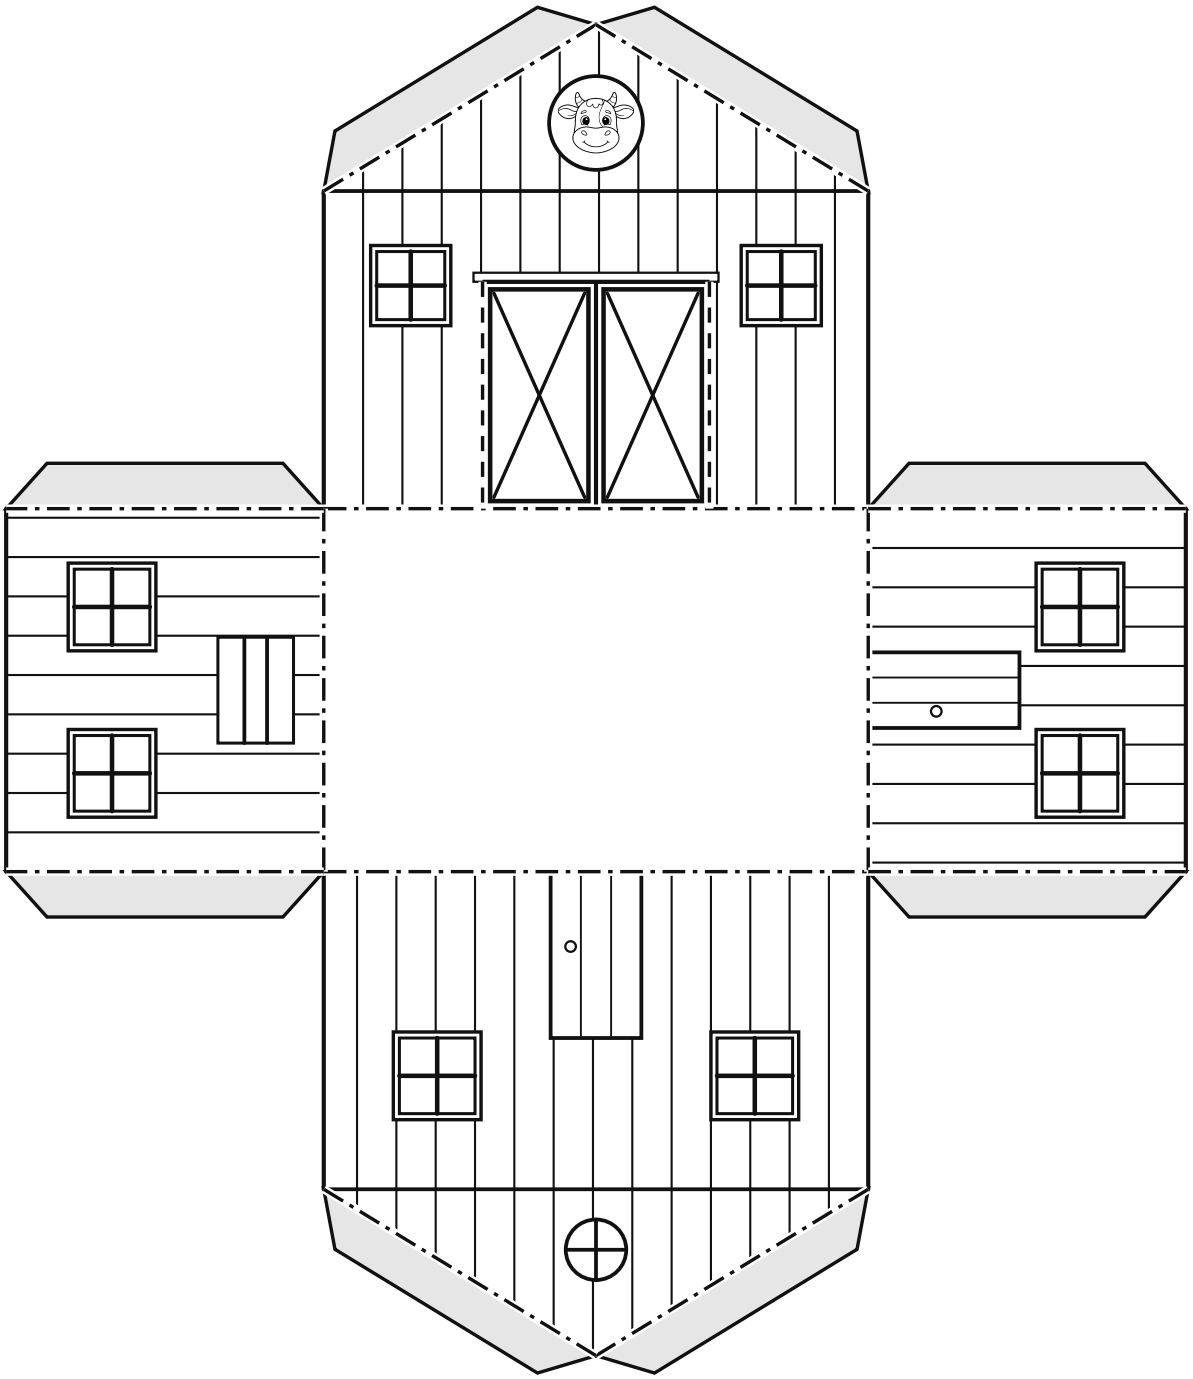
Papercraft Farm: Barn

Part 1: barn with opening doors

approx. 7 × 5 × 7 cm

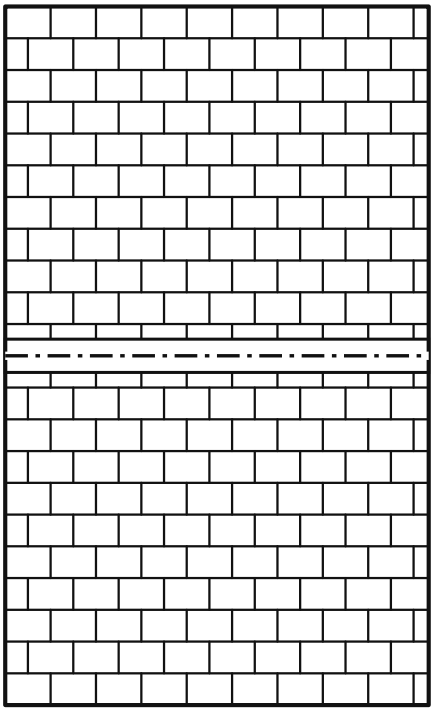


cut — · — · mountain fold: fold back — — — valley fold: fold towards you ▭ glue

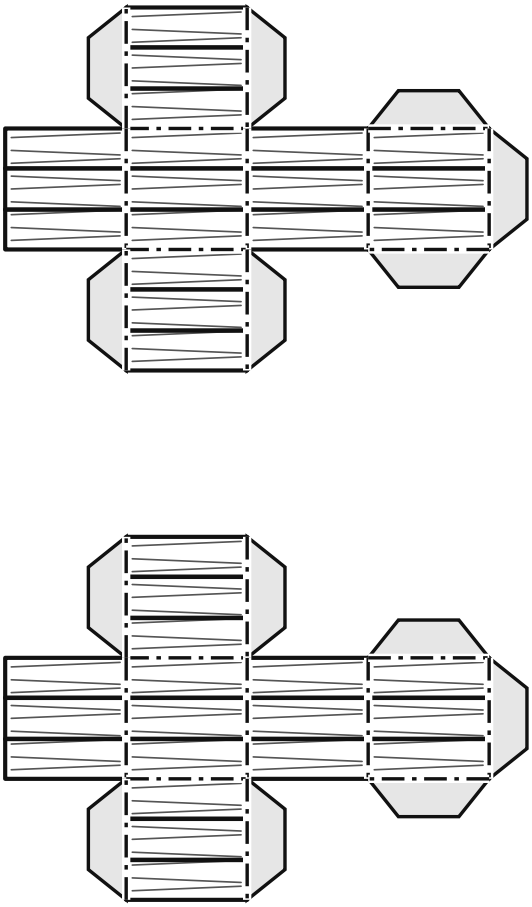
1. Cut out (also snip the doors along the top, middle and bottom). Pre-crease all fold lines – a ruler and an empty pen make it easy.
2. Fold the walls up and back, glue the grey tabs inside onto the neighbouring wall. Fold the gable tabs inwards.
3. Fold the roof from page 2 in the middle and glue it onto the gable tabs. Open the barn doors – done!

Papercraft Farm: Barn

Part 2: roof and hay bales



Roof



2 hay bales (cubes)

cut — mountain fold: fold back — valley fold: fold towards you — glue

1. Cut out the roof, fold back along the middle line and glue it onto the gable tabs with the shingles facing out.
2. Hay bales: cut out the cubes, fold all edges, glue the tabs inside. The hay bales fit through the open barn doors.
