8 masks for nature days and fall

Free from puresketchy.com – for personal, preschool and classroom use

Craft Instructions

In this set: 8 masks. Tip: print at actual size (100 %) on cardstock.

Face Masks

What You Need: Printer + heavier paper or cardstock (65–110 lb); Colored pencils, markers or watercolor.

1. Print: Print the template at actual size (100 %, not “fit to page”) on thick paper.
2. Color: Color the mask any way you like – the big shapes are perfect for little hands.
3. Cut Out: Cut along the thick outer line.
4. Eye Holes: An adult cuts out the eye holes with a craft knife or pointed scissors.
5. Add Elastic: Punch holes at the two small circles, thread the elastic through and knot it – done!

Forest and fall activity ideas

- Leaf collage: Glue collected leaves on the mask for great fur effects on the fox, hedgehog and bear.
- Lantern walk: The animals walk in pairs, each with a lantern of their own.
- Nut gathering: A squirrel game: collect felt nuts and bring them back to the nest.
- Guess the sound: One child mimics the animal, and the others guess fox, owl or wolf.

Safety: eye holes, craft knives and hot glue are grown-up jobs. Don't run or play rough while wearing a mask that limits your view – and never put elastic around the neck.
